

Upustvo za podešavanje Outlook Express e-mail klijenta.

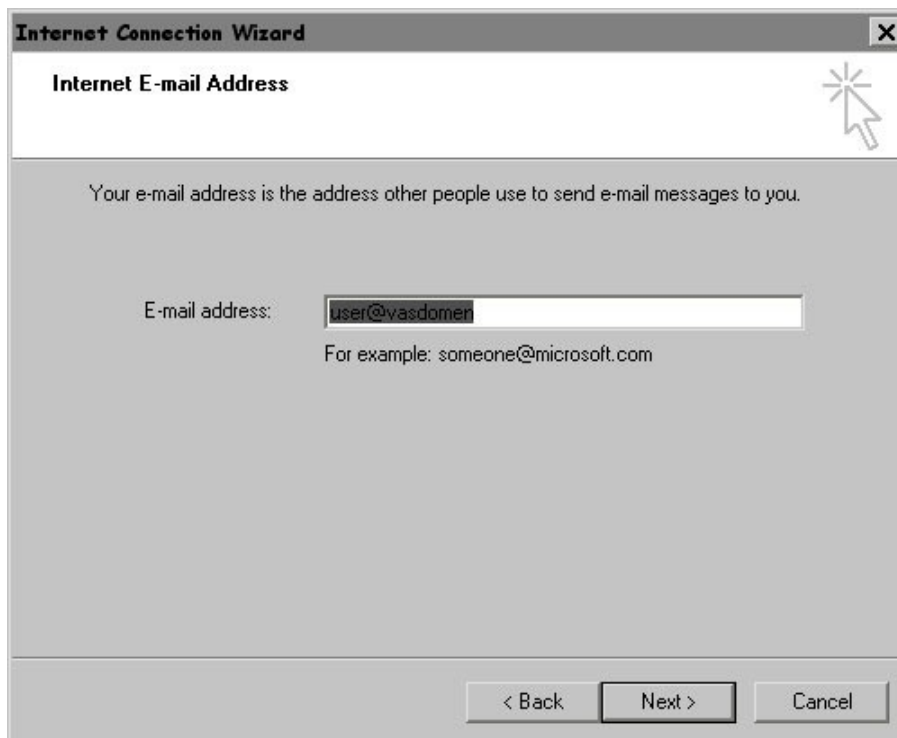

Da bi Outlook Express bio pravilno konfigurisan morate uneti podatke vezane za Vaš account koji ste prethodno definisali u okviru Vašeg control panela.

1. Pokrenite Outlook Express.
2. Ako Outlook Express pokrećete prvi put nakon instalacije, pokrenuće se tzv. **Internet Connection Wizard**, odnosno niz prozora koji vam pomažu da upišete potrebne podatke i samim tih ispravno konfigurirate Vaš mail nalog. Ako ste već koristili Outlook, izaberite opciju **Tools** pa **Accounts**. Zatim kliknite karticu **Mail**. Ako već imate definiranu adresu, ona će se tu pojaviti. Kliknite na gumb **Add** te odaberite opciju **Mail...**
3. Prvi korak je da u prozoru **Your Name** upišete svoje ime i prezime.

Kliknite **Next>**.

4. Pojavljuje se prozor **Internet E-mail Address**. Odaberite opciju **I already have an e-mail address that I'd like to use**, a u polje **E-mail address:** upišite svoju *e-mail* adresu na Vasem serveru to je adresa koja pocinje sa Vasim korisnickim imenom +@vasdomen (taj podatak sami kreirate u Vasem Cpanel-u), u našem primeru je korišđena adresa : **user@vasdomen**

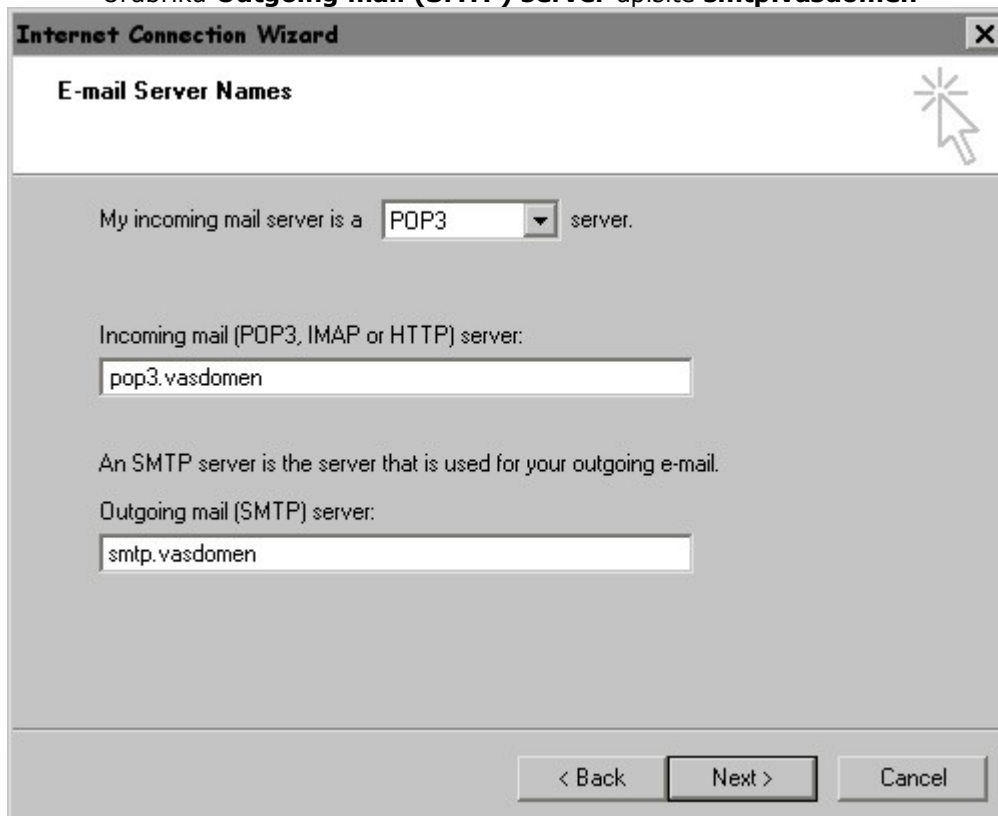

The screenshot shows the 'Internet Connection Wizard' dialog box with the title 'Internet E-mail Address'. Below the title bar, there is a text area with the instruction: 'Your e-mail address is the address other people use to send e-mail messages to you.' Below this, there is a label 'E-mail address:' followed by a text input field containing 'user@vasdomen'. Underneath the input field, there is an example: 'For example: someone@microsoft.com'. At the bottom of the dialog, there are three buttons: '< Back', 'Next >', and 'Cancel'.

Kliknite **Next>**.

5. U prozoru **E-mail Server Names** upisuju se podaci o Vasem POP3 i SMTP serveru koji opslužuju vašu elektronsku poštu.

U rubriku **Incoming mail (POP3, IMAP or HTTP) server** upišite **pop3.vasdomen**

U rubriku **Outgoing mail (SMTP) server** upišite **smtp.vasdomen**

The screenshot shows the 'Internet Connection Wizard' dialog box with the title 'E-mail Server Names'. Below the title bar, there is a text area with the instruction: 'My incoming mail server is a POP3 server.' Below this, there is a label 'Incoming mail (POP3, IMAP or HTTP) server:' followed by a text input field containing 'pop3.vasdomen'. Below that, there is another text area with the instruction: 'An SMTP server is the server that is used for your outgoing e-mail.' Below this, there is a label 'Outgoing mail (SMTP) server:' followed by a text input field containing 'smtp.vasdomen'. At the bottom of the dialog, there are three buttons: '< Back', 'Next >', and 'Cancel'.

Kliknite **Next>**.

6. U prozoru **Internet Mail Logon** u rubriku **Account name:** upišite korisničko ime (*username@vasdomen*) koje ste dobili prilikom kreiranja Vaseg email naloga (ili otvaranja Vaseg hosting naloga od osoblja HostingMania).

U rubriku **Password:** upišite lozinku za elektronsku poštu, koja je, ako je niste mijenjali, ista kao i lozinka za spajanje (taj ste podatak također dobili pri registraciji). Umjesto znakova lozinke, na ekranu će se pojavljivati zvjezdice.

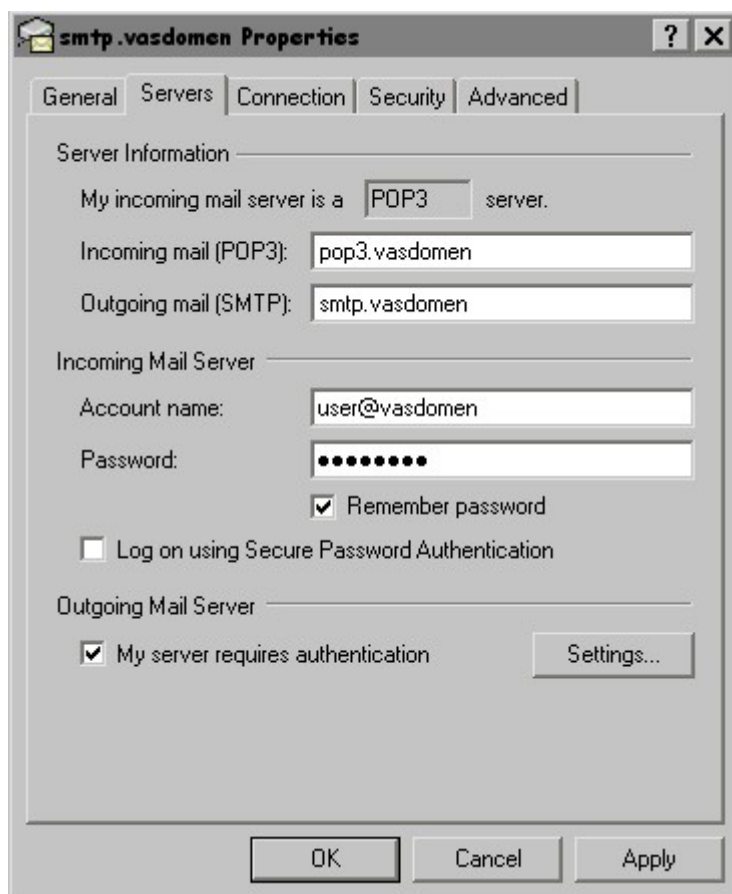

The screenshot shows a dialog box titled "Internet Connection Wizard" with a sub-header "Internet Mail Logon". The main text reads: "Type the account name and password your Internet service provider has given you." There are two input fields: "Account name:" containing "user@vasdomen" and "Password:" containing a series of dots. Below the password field is a checked checkbox labeled "Remember password". At the bottom, there is a paragraph of text: "If your Internet service provider requires you to use Secure Password Authentication (SPA) to access your mail account, select the 'Log On Using Secure Password Authentication (SPA)' check box." Below this text is an unchecked checkbox labeled "Log on using Secure Password Authentication (SPA)". At the very bottom of the dialog are three buttons: "< Back", "Next >", and "Cancel".

Kliknite **Next>**.

7. Pojavljuje se završni dijaloški okvir **Congratulations** koji Vas obavještava da ste uspešno završili upisivanje parametara, pa kliknite **Finish**.

8. Da bi ste podesili i do kraja konfigurisali Vaš email nalog u Vašem klijentu potrebno je da još uključite u podešavanjima za Vaš nalog "SMTP Authentication" u polju "My Server Requires Authentication" :

9. Sada nakon ovih podešavanja Vas email klijent je spreman za razmenu elektronske poste.

Iskreno se nadamo da smo Vam pomogli ovim upustvom u slučaju da imate problema sa podešavanjem Vašeg e-mail klijenta kontaktirajte našu tehničku podršku na email: podrska@hostingmania.rs.
